## UNEARTHING MOTHER NATURE

TLL is delighted to collaborate with Da Vinci Group to present Unearthing Mother Nature — a NeuroEd® programme. Through clay and hand-building, children will understand the shapes, sizes and textures of replicating fossils and ancient pottery. This will extend into learning about and appreciating the arduous job requirements of miners, archaeologists and palaeontologists as discoverers, teachers and protectors of history. Children will explore these roles through process drama - a method of teaching and learning drama where both the participant and facilitator are working in and out of role.
